

Lesson 3B - Artwork Creation Tools

In this lesson, you will learn how to create artwork lines and shapes using the Artwork Tool.

Open the Software

1. **Open** the software by **double-clicking** on the **Floriani** icon on your desktop.
2. When the **My Floriani Today** window appears, select the **Create A New Design** button to open a new design.
3. Select the **Backdrops Library** icon. Then, locate, select, and open the image titled **FBD053.jpg**.

4. Load the following colors from the Floriani Poly thread chart onto the Design Palette:
 - a. Red: **700 Mars Red**
 - b. Light Blue: **371 Tahoe Blue**
 - c. Yellow: **542 Cockatoo**
 - d. Black: **900 Black**

Create the Red Star with Artwork Tool

1. Select the **Red** color from the **Designs Palette** to select it.
2. Select the **Artwork tool** to activate it.
3. Next, **left click** at the top of the red star to place your first point.
4. Then, working clockwise, click everywhere there is an intersection in the red star where the line changes direction.
5. After clicking all around the red star, clicking over the top of the first point of the star, **right-click** to set the artwork line. You should then see the object appear in the sequence view.

Create the Light Blue Star with Artwork Tool

1. Select the **Light Blue** color from the Designs Palette to select it.
2. Select the **Artwork tool** to activate it.
3. Next, left click at the top of the light blue star to place your first point.
4. Then, working clockwise, click everywhere there is an intersection in the light blue star where the line changes direction.

5. After clicking all around the red star, clicking over the top of the first point of the star, **right-click** to set the artwork line. You should then see the object appear in the sequence view.

Create the Yellow Star with Artwork Tool

1. Select the **Yellow** color from the Designs Palette to select it.
2. Select the **Artwork** tool to activate it.
3. Next, left click at the top of the yellow star to place your first point.
4. Then, working clockwise, click everywhere there is an intersection in the yellow star where the line changes direction.
5. After clicking all around the red star, clicking over the top of the first point of the star, **right-click** to set the artwork line. You should then see the object appear in the sequence view.

Create the Black Star with Artwork Tool

1. Select the **Black** color from the Designs Palette to select it.
2. Select the **Artwork** tool to activate it.
3. Next, left click at the top of the black star to place your first point.
4. Then, working clockwise, click everywhere there is an intersection in the black star where the line changes direction.
5. After clicking all around the red star, clicking over the top of the first point of the star, **right-click** to set the artwork line. You should then see the object appear in the sequence view.

Fill the Shapes with Color

1. Select the **Red Star** in the design (select it with the selection tool or click on the red sequence in the sequence view).
2. In the **Properties Box**, select the **Fill** check box and then press **Apply**. This will fill the red star in with color.
3. **Repeat** the steps for the remaining colors and filling them with color.

Save the Design

1. Select **File** from the **menu bar** and then select **Save As**.
2. Save the File in the following folder: **C:\Floriani\Designs\00_FTCU LESSONS\02_Tools for Creating**
3. Name the file **TFC_01**, choose **WAF** for the format, and then click **Save**.
