# Lesson 3D - Artwork Creation Tools

In this lesson, you will create an outline shape that has both straight and curved lines. Working with curved lines is a little different.
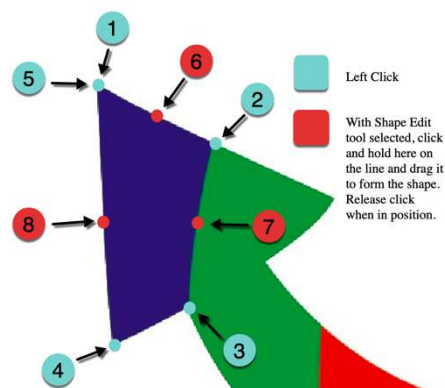

Open the Software

1. Open the software by double-clicking on the Floriani icon on your desktop.
2. When the **My Floriani Today** window appears, select the **Create A New Design** button to open a new design.

3. Select the **Backdrops Library** icon. Then, locate, select, and open the image titled **FBD050.jpg**.
Create the Blue Portion of the Arrow

1. Load the following colors from the Floriani Poly thread chart onto the Design Colors Palette:
   - Blue: **368 Royal Blue**
   - Green: **233 Irish Green**
   - Red: **700 Mars Red**
   - Yellow: **546 Snapdragon**
2. Select the **Artwork** tool, then click on the **368 Royal Blue** color to activate it.
3. Follow this sequence to create the artwork line:
   - **Left-click** on each point, starting with 1 and ending with the last number.
   - **Right-click** on the design page to apply the artwork line.
4. Select the **Shape** edit tool. Next, click the line between each point and bend it into the correct position, outlining the image.
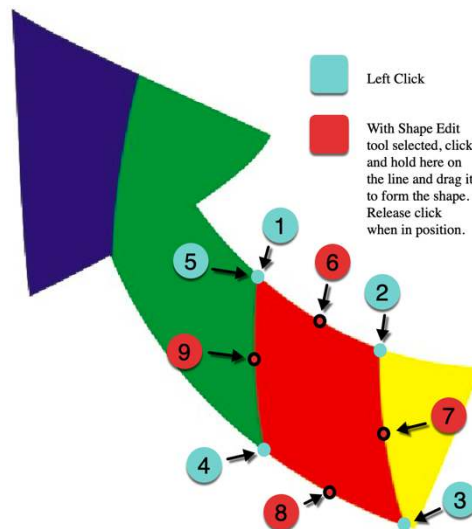

Create the Green Portion of the Arrow

1. Select the **Artwork** tool, then click on the **233 Irish Green** color to activate it.
2. Follow this sequence to create the artwork line:
3. **Left-click** on each point, starting with 1 and ending with the last number.
4. **Right-click** on the design page to apply the artwork line.
5. Select the **Shape** edit tool. Next, click the line between each point and bend it into the correct position, outlining the image.
Create the Red Portion of the Arrow

1. Select the **Artwork** tool, then click on the **700 Mars Red** color to activate it.
2. Follow this sequence to create the artwork line:
3. **Left-click** on each point, starting with 1 and ending with the last number.
4. **Right-click** on the design page to apply the artwork line.
5. Select the **Shape** edit tool. Next, click the line between each point and bend it into the correct position, outlining the image

Create the Yellow Portion of the Arrow

1. Select the **Artwork** tool, then click on the **546 Snapdragon** color to activate it.
2. Follow this sequence to create the artwork line:
3. **Left-click** on each point, starting with 1 and ending with the last number.
4. **Right-click** on the design page to apply the artwork line.
5. Select the **Shape** edit tool. Next, click the line between each point and bend it into the correct position, outlining the image.

Fill Artwork with Color

1. In the **Sequence View**, click **Select All** to select all the objects in the design.
2. Next, click the **Fill** box in the properties box and then press **Apply** to fill all the objects in with color.

Save the Design

1. Select **File** from the **menu bar** and then select **Save As**.
2. Save the File in the following folder: **C:\Floriani\Designs\00_FTCU LESSONS\02_Tools for Creating**
3. Name the file **TFC_03**, choose **WAF** for the format, and then click **Save**.
