

Practice Lesson 5 - Circle Template Tool

Open the Software

1. Open the software by **double-clicking** on the software icon.
2. Explore the **My Floriani Today** window and click on the options.

Create A New Design

1. **Click** on the **Create a New Design** icon from the My Floriani Today window (if still open. If not, go to step 2)
2. Click one of the following to open a new design page:
 - **Click** the **New** icon from the menu bar (*recommended way to open a new design page*)
 - **Click File** from the **menu bar** and then select **New**. *This option opens the New Page dialog box that allows you to select a style sheet for the new page.*

Insert a Symbol

1. Click on the **Symbol** icon.
2. In the properties box, select **Shell** from the **Symbol:** drop-down box.
3. Next, **left-click** anywhere on the design page. This will insert the symbol onto the design page.
4. Next, **right-click** to turn off the symbols tool.

Apply Circle Template Feature

1. Turn on **3D** view
2. Select the entire design.
3. Next, select the **Circle Templates** icon to open the dialog box.
4. Apply the following settings to the design:
 - Width (in): 3.94
 - Height (in): will stay proportional
 - Check to Keep aspect ratio if necessary
 - Count: 18
 - Angle: Will automatically update
 - Offset angle: 0.0
 - Scale (%): 100
 - Angle: 0
 - Check Auto rotate box if necessary
 - Check the Color Sort box if necessary
 - Uncheck Reflect box if necessary
5. Click **Apply**.
6. Then, click **OK** to load the view of the design.

Save the Design

1. Select **File** from the menu bar and then select **Save As**.
2. Save the file in the following folder: C:\Floriani\Designs\00_FTCU LESSONS\01_General Lessons\03_Tools for Embellishing\

3. Name the file **TFEMB_Practice_05**, choose **WAF** for the format, and then click **Save**.
