## Intro to Assets

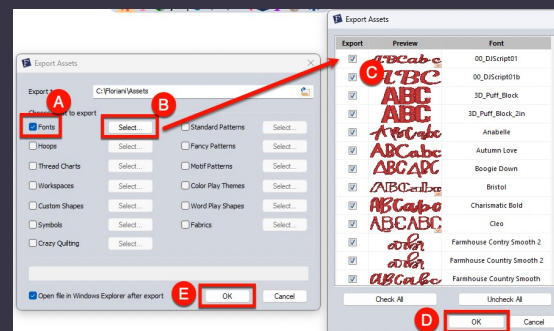

- What are FTCU Assets and what makes them special?
- What Assets does FTCU support?

3

## Exporting Assets

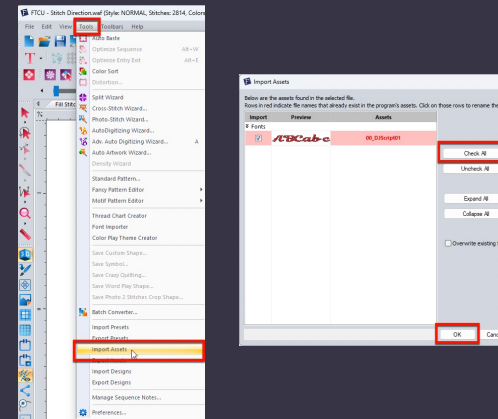

- To export assets, click "Tools" on the menu bar, then select "Export Assets".
- Next, locate and check the box(s) next to the type of asset(s) file you want to export.
- Then, click the "Select" button next to an asset you checked the box(s) of and select the assets you want to include.
- Your Asset(s) will be installed into the correct location and ready to use.

4

## Importing Assets

- To import assets, click "Tools" on the menu bar, then select "Import Assets".
- Next, locate and select the asset file on your computer. Then, press "Open".
- In the Import Assets window, select "Check All". Then press OK.
- Your Asset(s) will be installed into the correct location and ready to use.

5
